ANURAG MISHRA

7007722425 aanuragmmishra.am@gmail.com LinkedIn GitHub Lucknow, India

PROFESSIONAL SUMMARY

Software Developer skilled in **C++, JavaScript, Python, and full-stack development**, with hands-on experience building real-time web applications and machine learning-based security solutions. Strong understanding of **Data Structures & Algorithms, OOP, DBMS, SQL, Operating Systems, and Computer Networks**. Experienced in developing RESTful APIs, database-driven applications, real-time communication, and ML models with explainable AI. Proficient in leveraging generative AI tools to improve development efficiency, debug code, and build scalable, maintainable solutions.

EDUCATION

Galgotias College of Engineering and Technology | Greater Noida — 2023 - 2027
B.Tech Computer Science — *CGPA : 6.8*

- Established a strong foundation in **web development**, **MySQL**, and **MongoDB** through coursework.
- Proficient in **Python**, **Java**, **C**, and **C++**, applying DSA and pattern recognition to effectively solve complex problems.
- Possess a solid grasp of AI fundamentals.

City International School , Lucknow | Lucknow — 2022
Class 12th (CBSE) — *Percentage : 92.3*

City International School, Lucknow | Lucknow — 2020
Class 10th (CBSE) — *Percentage : 84*

PROJECTS

iMessage – Real-Time Messaging Web Application | Website Github

- Developed a full-stack messaging application supporting real-time one-to-one communication using Socket.IO.
- Implemented secure user authentication with Clerk and persistent storage of users and conversations using MongoDB and Mongoose.
- Integrated ImageKit for image and video sharing with file-type validation and upload size restrictions.
- Built a responsive chat interface featuring online user presence, conversation history, dark/light mode, customizable themes, and wallpapers.
- Deployed the application on Render and configured Docker-based production builds.

Technologies / Tools Used : *React, Node.js, Express, MongoDB, Tailwind CSS, Mongoose, Socket.io, Clerk, Imagekit, Zustand, Axios*

WanderLust | Github

- Built a full-stack accommodation platform with search, filters, and property management using Node.js, Express.js, MongoDB, and server-rendered UI.
- Implemented Passport.js authentication, Joi validation, Cloudinary image uploads, and Mapbox geocoding for interactive property mapping.

Technologies / Tools Used : *Node.js, Express, MongoDB, Tailwind CSS, passport.js, Cloudinary, EJS*

Detection of SQL Injection Queries Using Machine Learning | Github

- Developed an ML-based application to detect SQL injection attacks using an XGBoost classifier, achieving **99.56% test accuracy**.
- Applied character-level TF-IDF feature extraction to identify suspicious SQL patterns.
- Integrated SHAP explainability and a Streamlit interface to display predictions, confidence scores, and influential character patterns.

Technologies / Tools Used : *Python, Machine Learning, SQL, Anaconda Notebook, etc*

SKILLS

Programming Languages :	C, C++, Java, Python, JavaScript, TypeScript, SQL
Frameworks & Libraries :	React, Next.js, Node.js, Express, Tailwind CSS
Tools & Platforms :	Git, GitHub
Databases :	MySQL, MongoDB
Soft Skills :	Problem Solving, Communication, Critical Thinking, Decision Making
Languages :	English, Hindi
